

Alabama Historical Radio Society

Organizational Goals

1. To build the membership of the Society through various promotional programs designed to attract potential members and acquaint them with the work of the Society.
2. To establish working relationships with similar clubs in Alabama and other neighboring states creating an expanded network of information and services.
3. To develop training programs enabling members to experience the pleasure and educational value of worldwide shortwave listening.
4. Find and interview as many as possible early pioneers of radio in our city and state. These would include station owners, engineers, announcers, and performing artists. Tapes of interviews, together with copies of pictures or other articles they may make available, will be placed in the Don Kresge Memorial Museum or the archives section of the Birmingham Jefferson County Public Library.
5. To provide a place for people to share their old family radios with future generations by donating them to AHRS for preservation.

Programs and Activities

1. Operate the Don Kresge Memorial Museum where visitors may see and listen to radios manufactured over fifty years ago.
2. Conduct monthly meetings giving members an opportunity to participate in educational and informative programs designed to enhance the enjoyment of their hobby.
3. Arrange annual swap meets to provide opportunities for acquiring or disposing of equipment or other memorabilia.
4. Conduct formal classes on electronic restoration and cabinet refinishing for members wanting to acquire these skills.
5. Locate and enlist young people interested in learning the technical aspects of vacuum tube radio construction and repair.
6. Prepare and present programs for local business and civic groups to raise awareness and create interest in this vital part of our entertainment history.

Alabama Historical Radio Society

Chartered by
The State of Alabama
as a
Not-for-Profit Corporation

Superflex
Radio Products Corp. 1926 Birmingham, AL

The Society was founded in June, 1989 by Don Kresge, a retired G.E. engineer, to provide an opportunity for men and women of all ages to join together and pursue their interest in early radio. Whether you enjoy reading the early books and magazines, listening to tapes of broadcasts, or actually restoring old radios, the Society has a place for you.

Meetings are held on the fourth Monday of each month (except December), in the Alabama Power Building at 8th Ave & 18th Street, North, in Birmingham, at 7:00 p.m. Lab sessions are held at the same location each Saturday morning at 9:00 a.m.

Plan to visit the
Don Kresge Memorial Museum

located in the
Alabama Power Building
600 N. 18th Street
Birmingham, Alabama
Admission is free.
